Sensible Pulse Gymnastics SPG is a technique that teach us how to feel and how to transform an unpleasant state into a pleasant one. The goal is to learn to know the energy which produces our sensations. If we recognize our sensations as energy (electrical oscillations) we can manage them in our benefit. Sensible pulse gymnastic (SPG) has two pillars: 1) Give a good interpretation to the sensations that we feel as unpleasant and 2) Techniques that help us to obtain this reinterpretation.

HERE in [QUANTUM SENSIBLE PULSE GYMNASTIC](#) you will find the follow aspects:
